

## Manhattan Beach Miscellaneous Notes from Sunday

### MEN

- This marked the 6th straight year that a Crabb played for the title in Manhattan Beach (Trevor in 2017, Taylor in 2018, Trevor in 2019, 2021 and 2022, and both Trevor and Taylor in 2023)
- For the 9th time, the AVP championship match featured a pair of brothers battling for the title...Sinjin and Andrew Smith met 5 times (Sinjin won 4, Andrew won 1) and now Trevor and Taylor Crabb have met 4 times (Trevor won 2, Taylor won 2)
- Over the 4 days, there were 76 qualifier matches and 61 main draw matches... 108 teams were whittled down to just one who earned a plaque
- Sunday had just 3 matches on the schedule, and all were sweeps... totals for the main draw were 42 sweeps and 19 three-set matches out of the 61 completed matches
- Teams winning the first set were 54-7 for the event, including 29-1 in the winner's bracket
- A total of 21 of the 61 matches were upsets, including the championship match... each of the last 4 Manhattan Beach Opens (including this year) were won by the lower seeded team
- Taylor Crabb and Taylor Sander won their 2nd AVP title of the year, joining Andy Benesh and Miles Partain as the only duos to win multiple times (including Tour Series)
- Since match data was known (about 2002), this marked the 50th time that an AVP title match pitted two teams that played against each other earlier in the tournament... now 30 times one team has been able to win both times while 20 times the two teams split... this was the 4th championship of the season (non-Tour Series) in which the finals teams were having a rematch (also in Huntington Beach, Hermosa Beach and Atlanta)
